

WE LOVE RAIN

Fitting the Gutter Joint

1) Fold out the hinge of the gutter joint.

2) Hook the gutter joint over the back edge of the gutter sections.

4) Hold the bottom of the gutter joint against the gutters and press the lower part of the clamp towards the joint. The clamp will snap into place.

3) Fit the gutter joint against the two gutter pieces and put the top of the clamp over the front edge.

5) Finally secure the hinge with the small clip.
